

Corporate fact sheet

About Genetec

Genetec Inc. is a global technology company that has been transforming the physical security industry for over 25 years. The company's portfolio of solutions enables enterprises, governments, and communities around the world to secure people and assets while respecting individual privacy and the demand for operational efficiency.

Based on an open architecture, and built with cybersecurity at their core, Genetec solutions can be implemented on-premises, in the cloud, or in hybrid deployments. The company's flagship products, Genetec Security Center and Genetec Security Center SaaS, unify core physical security functions, such as access control, video surveillance, automatic license plate recognition (ALPR), intrusion detection, communications, and analytics.

Headquartered in Montreal, Canada, Genetec serves its customers via an extensive network of certified channel partners and consultants in over 159 countries.

Solutions

The company offers a broad solutions portfolio that encompasses security, operations, and collaboration tools, to help protect and manage people, assets and facilities.

Security as a service

Services, support and community

Professional Services

Our team of professionals offer remote and on-site services that can be tailored for all types of projects from straightforward to highly complex. By working with our accredited channel partners, we help optimize system performance, mitigate project risks, and ensure the successful delivery of any project. Whether you're handling a security upgrade or need guidance on cybersecurity best practices, we're here to help. We work alongside your team to build and maintain a security system that you can grow with and rely on for years to come.

Genetec SDK and DAP

Genetec™ Security Center allows you to expand your security platform by integrating additional systems and adding custom functionalities. Our development tools provide varying levels of access to core technologies within Security Center.

You can opt for complete video surveillance, access control, intrusion detection, analytics, and automatic license plate recognition functionality through a single Software Development Kit (SDK) or select a smaller package that better suits your needs.

Genetec A&E Consultant Program

We created the Genetec A&E Consultant Program to provide architects, engineers, and security consultants with a dedicated team who understand the complexity of your projects.

Genetec Advantage

Genetec Advantage is a comprehensive software maintenance package that progressively grows the value of your security system and allows you to focus on your operations.

Channel Partner Program

Our Channel Partner Program is designed to support and reward highly skilled and accredited security service providers that design and deliver projects using Genetec products.

Technology Partner Program

Our Technology Partner Program is the pathway to building secure and reliable integrations with Genetec solutions.

Technology partners gain access to all the latest tools and support needed to easily integrate security systems and devices with Security Center. You'll also be able to create and strengthen partnerships with other leading technology providers and maximize co-marketing opportunities.

Grants Support Team (US only)

The Genetec Grants Support Team (GGST) offers complimentary services to help agencies in the US navigate grant funding processes. Organizations served include public sector agencies, educational institutions, public utilities, transit agencies, and healthcare organizations among others.
